DETAILED ACTION

Claim Objections

1. Claims 13-15, 19-26 and 28-44 are objected to under 37 CFR 1.75(c) as being in improper form because a multiple dependent claim cannot depend from any other multiple dependent claim. See MPEP § 608.01(n). Accordingly, the claims 13-15, 19-26 and 28-44 not been further treated on the merits.
2. Therefore, claims 13-15, 19-26 and 28-44 were not included in the Election/Restriction requirement. Once the claim dependency is clarified, more groups may be introduced.

Election/Restrictions

3. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

Group I, claim(s) 1-12, drawn to a method of in vitro translation of a ribonucleic acid using a cell extract from a multicellular eucaryote.

Group II, claim(s) 16 and 18, drawn to a method for the preparation of a Drosophila embryo extract.

Group III, claim(s) 17 and 18, drawn to a method for the preparation of a Drosophila ovary cell extract.

Group IV, claim(s) 27, drawn to a method for the preparation of a mammalian cell extract.

Art Unit: 1637

4. The inventions listed as Groups I-IV do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: in vitro translation using *Drosophila melanogaster* cell lysates was known in the art (see Scott et al. Biochemistry, vol. 18, pp. 1588-1594, 1979; cited in the IDS).
5. Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
6. Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).
